

Paper reference 31761H
Pearson BTEC
Level 3 Nationals Certificate,
Extended Certificate, Foundation Diploma,
Diploma, Extended Diploma

INFORMATION TECHNOLOGY
UNIT 2: CREATING SYSTEMS TO
MANAGE INFORMATION

(Part B)

Time: 2 hours

X71610A

YOU MUST HAVE:

activity6.rtf,

activity7.rtf,

partB_database.accdb or

partB_database.mdb

YOU WILL BE GIVEN

- **Nil.**

You do not need any other materials.

INSTRUCTIONS

- **Part A and Part B** contain the material for the completion of the set tasks under supervised conditions.
- There are 40 marks for **Part A** and 26 marks for **Part B**, giving a total mark for the set tasks of 66.
- **Part A and Part B** are specific to each series and this material must be issued only to learners who have been entered to take the tasks in the specified series.

(continued on the next page)

Turn over

INSTRUCTIONS continued

- Learners **MUST ONLY** have access to **Part B** during this examination session.
- This booklet should be kept securely until the start of the 2 – hour supervised assessment period.
- **Part A** materials must not be accessed during the completion of **Part B**.
- **Part A** and **Part B** should be submitted together for each learner.
- This booklet should not be returned to Pearson.
- Answer **ALL** activities.

INFORMATION

- The total mark for this paper is 26 marks.
-

INSTRUCTIONS TO INVIGILATORS is on the next page

INSTRUCTIONS TO INVIGILATORS

This paper must be read in conjunction with the unit information in the specification and the BTEC Nationals Instructions for Conducting External Assessments (ICEA) document.

See the Pearson website for details.

Refer carefully to the instructions in this task booklet and the BTEC Nationals Instructions for Conducting External Assessments (ICEA) document to ensure that the assessment is supervised correctly.

The 2 – hour Part B set task must be carried out under examination conditions.

The database and electronic templates for Activities 6 and 7 are available on the website for centres to download for candidate use.

Learners must complete this task on a computer using the templates provided and appropriate software. All work must be saved as PDF documents for submission.

(continued on the next page)

Turn over

INSTRUCTIONS TO INVIGILATORS continued

Invigilators may clarify the wording that appears in this task but cannot provide any guidance in completion of the task.

Invigilators should note that they are responsible for maintaining security and for reporting issues to Pearson.

(continued on the next page)

INSTRUCTIONS TO INVIGILATORS continued**MAINTAINING SECURITY**

- **Learners must not bring anything into the examination environment or take anything out.**
- **Centres are responsible for putting in place appropriate checks to ensure that only permitted material is introduced into the examination environment.**
- **Internet access is NOT permitted.**
- **Learners' work must be regularly backed up.**
Learners should save their work to their folder using the naming instructions indicated in each activity.
- **During any permitted break, and at the end of the examination, materials must be kept securely, and no items removed from the supervised environment.**
- **Learners can only access their work under supervision.**
- **User areas must only be accessible during the examination session and only by the individual learners.**

(continued on the next page)

Turn over

INSTRUCTIONS TO INVIGILATORS continued

- Any materials being used by learners must be collected in at the end of the examination.
- Following completion of **Part B** of the set task, all materials must be retained securely for submission to Pearson.
- **Part A** materials must not be accessed during the completion of **Part B**.

(continued on the next page)

INSTRUCTIONS TO INVIGILATORS continued**OUTCOMES FOR SUBMISSION**

Each learner must create a folder to submit their work.

The folder should be named according to this naming convention:

**[Centre #]_[Registration number #]_
[surname]_[first letter of first name]_PartB**

Example: **Joshua Smith** with registration number **F180542** at centre **12345** would have a folder titled

12345_F180542_Smith_J_PartB

Each learner will need to submit 3 PDF documents **AND** their final database within their folder.

The 3 PDF documents should use these file names:

ACTIVITY 6:

**activity6_[Registration number #]_[surname]_
[first letter of first name]**

(continued on the next page)

INSTRUCTIONS FOR LEARNERS is on the next page

INSTRUCTIONS FOR LEARNERS

Read the set task information carefully.

Plan your time carefully to allow for the preparation and completion of all the activities.

Internet access is NOT allowed.

You will complete this set task under supervision and your work will be kept securely at all times.

You must work independently throughout the examination and must not share your work with other learners.

Your invigilator may clarify the wording that appears in this task but cannot provide any guidance in completion of the task.

Part A materials MUST NOT be accessed during the completion of Part B.

(continued on the next page)

INSTRUCTIONS FOR LEARNERS continued**OUTCOMES FOR SUBMISSION**

You must create a folder to submit your work.

The folder should be named according to the following naming convention:

**[Centre #]_[Registration number #]_
[surname]_[first letter of first name]_PartB**

Example: Joshua Smith with registration number F180542 at centre 12345 would have a folder titled

12345_F180542_Smith_J_PartB

You will need to submit 3 PDF documents AND your final database within this folder.

The 3 PDF documents should use these file names:

ACTIVITY 6:

**activity6_[Registration number #]_[surname]_
[first letter of first name]**

[first letter of first name]**

ACTIVITY 8:

**activity8_[Registration number #]_[surname]_
[first letter of first name]**

Part B SET TASK BRIEF is on the next page

Part B SET TASK BRIEF

You are advised to spend 10 minutes reading the Task Scenario and the activities you are to complete.

You may make notes and/or highlight information to use in the completion of the documents you need to produce for your task.

TASK SCENARIO

‘Automatic Vending Services’ has partially developed a database that will eventually merge with the database you created in Part A.

Each machine belongs to a brand, for example CoffeeTech EasyLife.

Each drink is sold for £1.20

Each machine has a meter that counts how many drinks are purchased.

(continued on the next page)

TASK SCENARIO continued

Once a week a meter reading and the money collected are recorded from each machine.

The meter reading is compared to the most recent reading stored to calculate:

- how many drinks have been sold
 - how much money should have been collected
 - whether an engineer needs to check the machine is working correctly.
-

Part B SET TASK is on the next page

Part B SET TASK

You must complete ALL activities within the set task.

Produce your documents using a computer.

Save your documents in your folder ready for submission using the formats and naming conventions indicated.

ACTIVITY 6 is on the next page

ACTIVITY 6: FORMS – You are advised to spend 1 hour and 10 minutes on this activity.

NOTE

- The structure of the tables provided should not be changed in any way, e.g. do not add validation, do not change data types.
- You will **ONLY** be required to use **tblMachine** and **tblMachineReading**.

Create an efficient interface that will facilitate database input by producing:

(a) an input form to add a drinks machine.

- The form should be ready for data entry.
- The purchase date must be present.
- The purchase date must not be in the future.
- The machine must be assigned a valid brand.
- Valid data should be appended to the machine table, a save message should display and the form should be cleared ready for the next data entry.
- A suitable error message should appear where invalid data has been used.

(continued on the next page)

Turn over

ACTIVITY 6 continued

(b) an input form to analyse meter readings.

- **The form must NOT include validation for any fields.**
- **The form must NOT include an automated routine to save the data.**
- **There must be a combo box to select a machine ID.**
- **For the selected machine the user inputs:**
 - **the week beginning date**
 - **the meter reading**
 - **the money collected.**
- **The information for that machine must be generated and displayed on the form:**
 - **the highest meter reading stored in the table for that machine which is the most recent meter reading**
 - **the number of drinks sold**
 - **the amount of money expected**
 - **the words CALL ENGINEER should appear if the money collected is less than the money expected by more than £10.**

(continued on the next page)

Turn over

ACTIVITY 6 continued

Evidence your interface as screenprints using the given activity6.rtf template.

Your screenprints must show:

- the **DESIGN** view and **FORM** view of all the forms you have created
- the **DESIGN** view of any queries you have created and used with the forms including fields and criteria
- the **DATASHEET** view of any queries you have created and used with the forms
- details of any calculations, validation and macros / code you have created and used with the forms.

Ensure sufficient information is provided to allow a competent third party to maintain the database.

Save the evidence of your interface as a PDF in your folder for submission as

activity6_[Registration number #]_[surname]_[first letter of first name]

(Total for Activity 6 = 14 marks)

ACTIVITY 7: INTERFACE TESTING – You are advised to spend 20 minutes on this activity.

Test the interface of your relational database using suitable test data (normal, erroneous and extreme as appropriate).

You must not add validation to any of the tables.

You must provide evidence of FORM LEVEL testing that proves:

- 1. the machine input form is ready for data entry when the form opens**
- 2. the purchase date must be present**
- 3. the purchase date must not be in the future**
- 4. the machine must be assigned a valid brand**
- 5. a record will save in the machine table if all the required data is present and valid**

(continued on the next page)

ACTIVITY 7 continued

6. these details appear on the meter reading analysis form after the machine ID has been selected and the week beginning date, meter reading and money collected have been input:

- **the highest meter reading stored in the table for that machine which is the most recent meter reading**
- **the number of drinks sold**
- **the amount of money expected**
- **the words CALL ENGINEER if appropriate.**

Complete the test log to show how you have tested your input forms using the given activity7.rtf template.

Save your test log as a PDF in your folder for submission as

activity7_[Registration number #]_[surname]_[first letter of first name]

(Total for Activity 7 = 6 marks)

ACTIVITY 8: INTERFACE EVALUATION – You are advised to spend 20 minutes on this activity.

Evaluate your interface.

You should consider the quality, performance and usability of the interface you have created in terms of how well it ensures:

Machine form

- **the machine form is ready for data entry when the form opens**
- **the purchase date must be present**
- **the purchase date must not be in the future**
- **the machine must be assigned a valid brand**
- **a record will save in the machine table if all the required data is present and valid**

(continued on the next page)

ACTIVITY 8 continued

Meter reading analysis form

- these details appear on the meter reading analysis form after the machine ID has been selected and the week beginning date, meter reading and money collected have been input:
 - the highest meter reading stored in the table for that machine which is the most recent meter reading
 - the number of drinks sold
 - the amount of money expected
 - the words **CALL ENGINEER** if appropriate.

Save your evaluation as a PDF in your folder for submission as

activity8_[Registration number #]_[surname]_[first letter of first name]

(Total for Activity 8 = 6 marks)

TOTAL FOR PART B = 26 MARKS

END OF PAPER
